 - Finding in-depth & specialized <Subject> information.
- **UC Irvine Departments & Sites**
 - Finding faculty & campus resources
- **Professional Information**
 - Organizations, Associations & Career Information
-

NEW Comments and understandings:

- This is meant to be the basic 8 categories, others could be added up to 12 (?) total.
- Only 3-6 "key" sites. (Without URLs just short names).
- This level is not designed to print out (i.e. stand alone). We will design **most** "sub-pages" to be self-contained and printable (i.e. with call numbers and URLs).
- I moved "Reference Works" to the right for "visual" balance.

- assumes that entries will include print & electronic resources
- one-line or brief annotations are recommended
- on subject pages - reference to MELVYL will be to MELVYL-T
- guideline for length is about 100k - can be measured - more later
